

Spreading CSR activities capturing the JTEKT essence further throughout society

JTEKT aims to contribute to the development of a sustainable society and planet through sincere business activities based on our corporate philosophy of "contributing to the happiness of people and the abundance of society through product manufacturing". By valuing communication with each of our stakeholders, we will do our best to uncover social issues. Then, we will create and apply solutions to such issues and spread CSR activities capturing the JTEKT essence further throughout society.

Contribute to the development of a sustainable society and planet
