

CONTENTS

June 2011

FOREWORD	Passing on a Beautiful Earth to Future Generations..... 1 Senior Executive Director Takaaki SUZUKI
CONTRIBUTION	Boundary Lubrication from the Viewpoint of Surface Chemistry –Role of nascent surface on tribochemical reaction of lubricant additives– 2 Iwate University, Faculty of Engineering, Department of Chemistry and Bioengineering Professor Shigeyuki MORI
SURVEY	"Monozukuri" Manufacturing in Emerging Countries..... 13 M. ISAKA
TECHNICAL PAPERS	Estimation of Residual Stress Distribution Induced by Shot Peening 18 J. KUSTER T. KOBAYASHI Strategy for Transfer Elemental Designing and Employing Physical Characteristic Modeling of Steering Maneuvering (the Second Report)..... 23 S. KIMURA S. NAKANO Development of Automatic Process Planning System for Indexed 5-Axis Machining..... 31 T. OKITA Y. YAMADA Y. KUWANO
TECHNICAL REPORTS	Deposition Technology and Applications of DLC Films.....39 M. SUZUKI K. YAMAKAWA T. SAITO High-Reliability Design of Software Applying Model-Based Development..... 45 Y. KOBAYASHI H. KATO K. TOYOZUMI Development of Brushless Motor EPS Assist Control for Disconnection Failure..... 51 T. NOZAWA Y. SHINTANI T. TAMAIZUMI T. HIBI H. ITAMOTO Establishment of Evaluation Method for Rattle Noise of Steering Gear for Column Type Electric Power Steering (C-EPS [®]) System 55 M. TAENAKA Performance of Rear Differential Depending on Vehicle Driving Mode..... 59 K. KAWAGUCHI A. UEMURA H. MATSUYAMA T. AIDA Technical Development of Automotive Wheel Bearing Seals (Muddy-Water Resistant Seal, Low-Temperature Environment Seal and Super Low-Torque Seal)..... 64 M. TAKIMOTO T. ISHIKAWA K. HARADA

Development of e640V3 Vertical Machining Center	70
K. YAMAZAKI K. TSUDA	
Development of e500H Horizontal Machining Center.....	74
K. IMANISHI Y. OOTSUKA	
Development of GC20R-63 CBN Camshaft Multi-Task Grinder	78
S. YAMAGUCHI	
Development of Energy-Saving High-Performance Continuous Carburizing Furnace.....	82
M. MINAMIGUCHI T. SAITOU
