May 2013

FOREWORD	Realizing A Low Carbon Society 1 Executive Director, Member of the Board Tetsuji OKUDA
CONTRIBUTION	To the New Frontier of Nano-Precision Mechanical Manufacturing Technology (from Form Generation to Function Generation) 2 School of Engineering, Tohoku University Professor Tsunemoto KURIYAGAWA
OUTLOOK	Approach to Energy Saving in Machine Tools 9 S. UETAKE
TECHNICAL PAPERS	Research on Relationship between Steering Maneuver and Muscles Activity . . . 13 T. MIZUNO R. HAYAMA S. KAWAHARA L. LOU Y. LIU X. JI Modeling and Simulation for Dynamic Analysis of Column Type Electric Power Steering 19 T. TAMURA A. MAROONIAN M. HIGASHI R. FUCHS
TECHNICAL REPORTS	Grease Lubrication Technology of Rolling Bearings 26 K. YOSHIZAKI Development of Motor-Integrated ECU 33 S. KOIKE T. TANINAGA T. NIWA Development of Compact and Light-Weight Column Type Electric Power Steering 38 Y. KAWADA Technical Trends of Oil/Air Lubrication for Steel Making Equipment 42 T. MIYACHI T. URANISHI New Technology of Bearings for Wind Turbine Generators and Market Trends of Wind Turbine Industry 48 Y. KOBAYASHI Development of Bearings with Low Temperature-rise and High-speed Performance for Machine Tool Main Spindles 57 K. SUZUKI S. MATSUE K. ICHIKAWA Development of Grease-Lubricated Spindle for Machining Center 63 Y. OKAWA O. HIGASHIMOTO
NEW PRODUCTS	Electric Oil Pump for Vehicle Idle Reduction System 67 Column Type Electric Power Steering System for FR Sports Cars 69 Super Energy-Saving Mini-Size Hydraulic Unit (SMALL PAC) 70 Vitrified Bonded CBN Wheel for Normal Speed (45 m/s) Cylindrical Grinder . . . 71
