## Special Edition on Steering and Drive Unit Technologies

<b>FOREWORD</b>	Trend of Technological Development at JTEKT . . . . . 1 Executive Vice President, Member of the Board S. KAWAKAMI
<b>CONTRIBUTION</b>	Future Trends for Automotive Steering Systems . . . . . 2 Univ.-Prof. Dr.-Ing. Lutz ECKSTEIN Institut für Kraftfahrzeuge-RWTH Aachen University
<b>OUTLOOKS</b>	Development and Future Outlook of Steering Systems . . . . . 8 H. MATSUOKA
	Trends and Outlook of Drive Units for Automobiles . . . . . T. SAKAI 14
<b>TECHNICAL PAPERS</b>	Clarification of Tribological Behavior on Tooth Surface of Resin Worm Gear for Electric Power Steering . . . . . 27 T. KUNISHIMA K. MIYAKE T. KUROKAWA H. ARAI
	Quantification of Vehicle Dynamics by Means of Development of a Multipurpose Simulator . . . . . 34 K. OKADA A. MAROONIAN N. SAWADA S. KAWAHARA S. NAKANO
	Development of Auxiliary Power Supply System for Electric Power Steering . . . . . F. SATO M. HIGASHI T. SUGIYAMA 39
	Theoretical Analysis of Flow Characteristics and Bearing Load for Mass-produced External Gear Pump . . . . . N. YOSHIDA 45
<b>TECHNICAL REPORTS</b>	Development of Electromagnetic Field Analysis Technology with High Frequency Band . . . . . K. INOUE 53
	Development of Meshing Variation Analysis of Worm Gear Used in Electric Power Steering . . . . . A. KIKUCHI S. MACHIDA 58
	Development of ECU Hardware for EPS Conforming to Functional Safety (ISO26262) . . . . . T. ITO 64
	Analysis of Ball Rotation Behavior of Rzeppa Type Constant Velocity Joint (CVJ) . . . . . 67 T. NAKAMURA K. ICHIKAWA H. KOBAYASHI S. SUZUKI Y. SHINODA A. MORI Y. KIMURA Y. SUGIYAMA
	Development of High Pressure Hydrogen Regulator for Fuel Cell Vehicles . . . . . T. KUBO 73
	Development of a Small-scale CVJ Forging Line . . . . . T. MISHIMA 77
