## Special Edition on Environmental Technologies

<b>FOREWORD</b>	Environmental Challenge . . . . . 1 Senior Executive Director, Member of the Board A. KUME
<b>CONTRIBUTION</b>	Model-Free Control of Longitudinal and Lateral Dynamics for Automated Vehicles . . . . . 2 Professor Brigitte d'ANDRÉA-NOVEL Centre de Robotique-Ecole des Mines de Paris
<b>SURVEY</b>	Activities Regarding the Development and Design of Environmentally Friendly Products . . . . . 9 H. SEGAWA
<b>OUTLOOK</b>	Progress and Prospect of Technologies for Rolling Bearings . . . . . 17 K. HAYASHIDA H. MATSUYAMA
<b>TECHNICAL PAPERS</b>	Low Torque and Low Noise Technology for Ball Bearings Under Grease Lubrication . . . . . 26 K. MIYAKE T. TSUDA K. YOSHIKAZAKI Development of Real-Time Thermal Displacement Compensation System for Machining Centers . . . . . 37 H. IWAI Y. SASAKI Y. WAKAZONO Y. SAKURAI Y. OKA
<b>TECHNICAL REPORTS</b>	Development of Torque Sensor Integrated with Plastic Sensor Housing . . . . . 43 S. KOYAMA N. MATSUI H. KUTSUMI M. KAJITANI Y. TOYAMA Development of Spacer Balls for Rack Parallel Type Electric Power Steering . . . . . 47 M. ASAKURA K. UCHIYAMA S. INOUE Development of Deep Groove Ball Bearings for High-speed Rotation . . . 52 Y. TANIGUCHI T. UMENO Oil/Air Lubrication for Steelmaking Equipment Bearings . . . . . 57 T. MIYACHI Development of the GS200H5 Gear Skiving Center . . . . . 62 Y. OOTSUKA Development of Hybrid Melting Furnace for Aluminum Die Casting . . . 67 K. KUMANO Y. MATSUURA H. URUSHIDANI

NEW PRODUCTS	Rack Parallel Type Electric Power Steering MCU to Enhance Functional Safety in Compliance with ISO 26262 Standard . . . . .	73
	TORSEN Type B for Small Trucks . . . . .	75
	Segmented Type Three-row Roller Bearing for Shield Tunneling Machine . . . . .	77
	GE3Pi-HYPER CNC Cylindrical Grinder . . . . .	78
