May 2020

## Special Edition on Automotive Technologies

<b>FOREWORD</b>	Overcoming an Era of Drastic Reform . . . . . 1 Executive Director, Member of the board T. MATSUMOTO
<b>CONTRIBUTION</b>	Dawn of Automated Driving . . . . . 3 Professor Yoshiki NINOMIYA Specially Appointed Professor in the Mobility Area at the Institute of Innovation for Future Society, Nagoya University
<b>OUTLOOKS</b>	Outlook for Steering System Technology Aimed at Self-Driving . . . . . 9 K. SAKATA Technical Trends and Outlook for Automotive Driveline Products . . . . . 16 Y. NAKAOKA Technological Trends and Outlook of Automotive Bearing . . . . . 25 K. YOKOTA
<b>TECHNICAL PAPERS</b>	Hands On/Off Detection Based on EPS Sensors . . . . . 36 M. MOREILLON T. TAMURA Y. SAKAI R. FUCHS Safety Design of Steering Systems for Autonomous Driving . . . . . 43 N. KAIHARA K. KIMURA A. ISHIHARA H. NAKAMURA Development of a Precise Docking System for Large City Buses . . . . . 55 K. OKADA M. NAKA S. KAWAHARA
<b>TECHNICAL REPORTS</b>	Development of an Auxiliary Power Supply System for Electric Power Steering and a High-heat Resistant Lithium-ion Capacitor . . . . . 65 T. MIO Y. KOMATSUBARA N. OHMI Y. KIMOTO K. IIZUKA T. SUGANUMA S. MARUYAMA K. NISHI Development of a Heavy Rare Earth Free Motor with Reduced Rare Earth Usage . . . . . 73 T. TAKEUCHI N. KANDA H. YOSHIKAWA K. TACHI S. TSUMURA Development of a Ball Screw for Electric Brakes . . . . . 78 G. ARAMOTO T. KOBAYASHI A. TASHIRO Development of Bearing Dynamics Analysis System . . . . . 83 Y. OOSHIMA K. HASEGAWA T. ONIZUKA

NEW PRODUCTS	Column Type Electric Power Steering Equipped with Small Integrated Motor and ECU . . . . .	90
	Intermediate Type Electric Power Steering . . . . .	92
	Electromagnetic Clutch for New AWD System . . . . .	93
	Vane Pump for 1-Motor Hybrid . . . . .	94
	Ultra-Low Friction Torque Tapered Roller Bearing (LFT- IV ) . . . . .	95
	High Efficiency Hub Unit . . . . .	97
