Leveraging cutting-edge technologies to help preserve our planet's environment

Vision behind this name:

Be a technology-oriented company able to move industries, the times, and people's hearts.

JTEKT Corporation. Through the merger of their knowledge and experience, Koyo Seiko and Toyota Machine Works have formed a company with the technical capability to achieve dramatic manufacturing innovation in Japan and worldwide based on highly reliable and advanced technology. JTEKT's commitment is to obtain the satisfaction of customers and contribute strongly to the advance of a sustainable society.

Front Cover: Canadian Rocky Mountain Parks

The Canadian Rocky Mountain Parks became a World Heritage Site in 1984. They comprise of four national parks and three provincial parks situated in Western Canada. Banff National Park was the first national park to be established in Canada and flying over the park is prohibited due to being designated as a special protection area. Naturally, sightseeing flights are also prohibited. A highway runs through the park, therefore underground and aboveground animal crossings were built to prevent elk and various other wildlife from being struck by cars, etc. The cover of this JEJ features Mount Rundle and its reflection in the Vermilion Lakes, which are located close to the town of Banff.
