**Aiming for the next stage of evolution by facing the future and
confronting the torrents**

JTEKT

JTEKT CORPORATION

Vision behind this name:

Be a technology-oriented company able to move industries, the times, and people's hearts.

JTEKT Corporation. Through the merger of their knowledge and experience, Koyo Seiko and Toyota Machine Works have formed a company with the technical capability to achieve dramatic manufacturing innovation in Japan and worldwide based on highly reliable and advanced technology. JTEKT's commitment is to obtain the satisfaction of customers and contribute strongly to the advance of a sustainable society.

Front Cover: "Iguazu Falls"

Iguazu Falls are one of the world's three largest waterfalls, accompanied by Niagara Falls in North America and Victoria Falls in Africa. Consisting of 275 large and small waterfalls, Iguazu Falls have a width of approximately 4 km, the longest in the world. The falls and the 2 256 m² area surrounding it have been designated as Iguazu National Park, of which the Argentinian side was registered as a UNESCO Natural World Heritage Site in 1984, followed by the Brazilian side in 1986. In the Guarani language of the area's indigenous peoples, "Igu" means "water," while "Açu" means "wonderous grandeur." As its name suggests, 6 500 tons of water flow through the falls every second.

With this flow of water likened to the torrent of world trends, the cover photo expresses JTEKT's attempt to challenge and confront this torrent with technology.
