JTEKT ENGINEERING JOURNAL No.1021E
English Edition

CONTENTS

June 2025

Special Edition on Mobility Technologies

FOREWORD
Building the Future Mobility Society through Collaborative Solutions That Exceed Expectations 1
Senior Executive Officer, Member of the Board, Chief Technology Officer T. MATSUMOTO

CONTRIBUTION
Introduction of Steering Assistance Using Haptic Interface 3
Prof. Kimihiko NAKANO
Dr. Eng., Institute of Industrial Science, the University of Tokyo

OUTLOOKS
Outlook for Research and Development in Mobility Technology 9
Y. YOSHII
Outlook for Steering Technology in a Period of Major Changes in Mobility ... 13
T. NAITO
Technology Development and Outlook for Automotive Driveline System ... 19
T. YAMAMOTO
Prospects for Automobile Bearing Technology 25
Y. MIURA

TECHNICAL REVIEW
Grease Technology to Prevent White Structure Flaking in Rolling Bearings for Engine Auxiliaries 30
K. TAKAHARA K. MIYAKE

TECHNICAL PAPERS
Development of Stowable Steering Column for Enhanced Cockpit Comfort with Autonomous Driving 36
R. TOKIOKA Y. NOZAWA T. WATANABE Y. OONO K. AOTA
Non-linear Control of Yaw Rate Response in Steer-by-Wire Vehicle ... 43
K. KITAHARA H. MOURI

TECHNICAL REPORTS
Development of Backup Power Supply for Steer-by-Wire System (J-EPICS) without Mechanical Link 49
D. INABA T. ISHIDA N. HAYASHI F. SATO T. HIBINO
Development of Column Type Electric Power Steering with Improved Level of Comfort 54
M. SAKUDA Y. TOYAMA N. KAWAMURA K. TSUKAHARA
Creation of a Method for Evaluating Steering Performance 59
Y. MORIMOTO T. KAWASE
Development of Low-vibration, High-efficiency CVJ for Drive Shafts ... 64
M. IKEO T. HIBINO Y. SHINODA S. ABE J. TSUNODA
Development of Compact Bearing JUCB and Resistant Electric Pitting Bearing JUEB 70
S. AKIMOTO Y. ISHII K. HIRAYAMA S. NAKAJIMA T. MINAMI

TECHNICAL REPORTS

Development of 5th Generation Low Friction TorqueTapered Roller Bearing (LFT-V) · · · 75
Y. TANIGUCHI K. YAMAGUCHI

Longer Stroke of Electric Adjust Steering Column · · · 80
T. MIYAGI T. SUZUKI

TECHNICAL PRODUCT

Development of 2nd Generation Rack Parallel Type Electric Power Steering · · · 85

TECHNICAL TOPIC

ONI BEARING, an Ultra-low Torque Ball Bearing for Road Bikes —Supplied to the World's Top Cycle Road Race Teams— · · · 88

General Articles (other than Special Edition)

TECHNICAL PAPERS

Reduction of Seal Torque under Grease Lubrication and Elucidation of Its Mechanism · · · 91
T. KAWABAYASHI Y. OOTAKI N. GOTO

Cutting Condition Analysis Technology during Gear Skiving Processing · · · 97
K. YOSHINAGA H. SHIBATA

Study on Machining Accuracy Analysis of Deep Die Mold Cutting · · · 104
K. KOBAYASHI

TECHNICAL REPORTS

Development of the Gear Processing Digital Twin · · · 110
S. TAKASU K. OTAKI Y. SASAKI K. YOSHINAGA

Development of Workpiece Surface Condition Monitoring System for Grinding Process · · · 115
S. YANG

Development of IH Coil Modeling Technology Using a 3D Printer · · · 120
A. OTSUKA K. MATSUHISA

Development of Energy-saving One-piece-flow Induction Hardening Machine · · · 126
A. MATSUDA T. TAKAMI

Development of Control Technology for Hospital Bed Transportation Assist Device · · · 132
H. OE

Development of Heat Treatment Equipment Using Superheated Steam · · · 139
J. NAKATANI

Machining Shape Analysis for Cylindrical Gear Grinding with Threaded Grinding Wheel · · · 144
C. SUMI K. MARUYAMA K. FUNAHASHI

TECHNICAL PRODUCT

Introduction of a New Heat Treatment System · · · 150
